**Subject:** microsoft anti-trust case

I am hanging on, hoping that my Government can see the forest through the trees. Please do not let them monopolize a free industry that will surely be tainted for the future if left unchecked. Teddy Roosevelt was a leader in trust busting and he would be all over them if he saw the case. Think like Teddy and say to yourself "how would he handle it." I am trusting you, our patriots, to help us make sure that they do not shape the world according to them only.

Thank you,

Keith Ajayan
